

SUPPORT | ADVOCATE | EDUCATE

ADVOCATE

he word "advocate" carries a rich and profound meaning, and it's what Farmers Rural Electric Cooperative is all about.

The Latin root words of "advocate" mean "to call to one's aid." At the heart of our cooperative is the mission to improve the quality of life for the people we serve.

For new members of Farmers RECC, this concept may be difficult to grasp. Why should a power company care about me? Isn't it just some corporation that says things like that to sound good to its shareholders?

Farmers RECC advocates for our members because we belong to our members. As a cooperative, there are no out-of-town shareholders or parent companies profiting off our members. Farmers Rural Electric is a not-for-profit utility that, from the very beginning in 1938 to this day, has always been led by and owned by the people we serve.

It means being your consumer-advocate and standing up for your rights, interests and needs. Here are some key ways we advocate for you:

AFFORDABLE RATES

Farmers Rural Electric works with East Kentucky Power Cooperative to keep electric rates as low as possible. We advocate for fair, just and reasonable rate structures, and our cooperative team is accountable to members to manage our operations efficiently. This ensures that we can offer some of the most competitive electricity rates in the country.

A national study showed that electric cooperatives in Kentucky, including Farmers RECC, have some of the lowest overhead of any utilities in the nation.

RELIABILITY

We understand the essential role electricity plays in your daily life. Our cooperative invests in maintaining and upgrading our infrastructure to ensure a reliable power supply. We advocate for robust and resilient systems to minimize outages, and when they do occur, we strive to restore power quickly.

MEMBER EDUCATION

An informed member is an empowered member. We advocate for your right to understand your energy consumption and how to use electricity efficiently. Through our suite of energy efficiency programs, Farmers RECC provides our members with the knowledge to make informed decisions about energy use.

COMMUNITY ENGAGEMENT

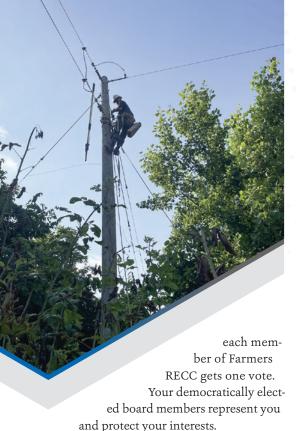

We believe in the power of community, and we advocate for the well-being of the communities we serve. Our cooperative actively supports local initiatives, charitable organizations and economic development efforts. Together, we strengthen our communities and advocate for their growth and prosperity.

Through our donations to local backpack programs, and the distribution of scholarships we are proud to support local students in their educational pursuits.

TRANSPARENCY AND ACCOUNTABILITY

Advocacy is also about being transparent and accountable in our actions. Farmers RECC shares our financial reports, operational updates and important decisions with you, our members.

Your input and participation in the cooperative's governance is crucial, and we advocate for and promote your right to elect the cooperative board. No matter the size of your home or your business,

In addition to updates and engagement at the co-op annual meeting, Farmers RECC regularly updates our membership in the pages of *Kentucky Living*, on our website, on social media and at local civic functions and events, such as the Rotary Club and Chamber of Commerce meetings.

RESILIENCE AND INNOVATION

We advocate for innovation and adaptability in a changing world. The energy landscape is evolving, and Farmers RECC is committed to staying at the forefront. By investing in smart technologies and exploring new ways to generate and distribute electricity, we ensure that you have access to the best services and the most cutting-edge solutions.

SPEAKING UP

Working with the 25 other electric cooperatives in Kentucky and more than 900 nationwide, Farmers RECC has a voice in Frankfort and Washington, D.C., speaking up on your behalf so policymakers understand the far-reaching consequences of their decisions.

Our advocacy also means speaking up before a crisis rears its head, and making sure that elected leaders know Farmers RECC is paying attention to their votes.

We encourage our members to cast their ballots to decide who represents them on the

Farmers RECC board, and we also participate in the nonpartisan Co-ops Vote initiative, reminding members to register and vote in elections.

CHALLENGES AND TRIUMPHS

The past year brought challenges that tested our resolve. From extreme weather in March and June to a regulatory environment that threatens the reliability of the electric grid, Farmers Rural Electric Cooperative is always focused on solutions and safety.

We celebrate triumphs in our daily advocacy for the safety and well-being of our employees and members, speaking up for your interests and adapting to new realities. Our commitment to you and your communities remains unwavering.

LOOKING AHEAD

As we reflect on the past year, we acknowledge that advocacy for our members is not a one-time effort but an ongoing journey. We are excited about the path ahead, as we continue to advocate for your best interests, ensuring that Farmers RECC remains a trusted partner in your lives.

Thank you for your ongoing support and trust. It is your belief in the cooperative spirit that drives us to advocate for you each day. Together, we light up our communities, empower our members and embrace a brighter future.

ELECTRICITY REMAINS A GOOD VALUE

Although inflation has led to increasing costs in many areas of our lives, the cost of powering your home rises slowly when compared to other common goods. Looking at price increases over the last five years, electricity remains a good value.
