

Farmers Rural Electric Cooperative Corporation

504 S. Broadway, Glasgow, KY 42141 • P.O. Box 1298, Glasgow, KY 42142 • (270) 651-2191 • Fax (270) 651-7332

### **Farmers RECC Solar Checklist**

Use this printable checklist to make planning installation of your new solar system easier.

#### ***Prepare Your Home***

Make your home energy efficient before solar installation to maximize investment.

- Complete a Home Energy Self-Evaluation through the [Virtual Energy Assessment](#).
- You can also have a free professional evaluation completed upon request. Call us at 270-651-2191 to learn more.

#### ***Find a Contractor***

- Request bids from at least 3 experienced contractors.
- Verify contractor licenses.
- Ask contractors for references and call them.
- Verify that the contractor has NABCEP (North American Board of Certified Energy Providers) certification. You can find that information [here](#).
- Ensure all bids are prepared using the same assumptions as closely as possible so you can compare “apples to apples”. Assumptions to review include:
  - System measurements
  - Warranties
  - Length of time to install
  - What is included in the base package, versus an “adder”
- Before signing a contract, read it carefully and thoroughly. Ensure all costs are included and ask questions about anything you do not fully understand.
- Take your time. Don’t rush into a decision before fully evaluating your options.

#### ***Notify Farmers RECC***

- Request an Application for Interconnection Agreement at [www.farmersrecc.com/solar](http://www.farmersrecc.com/solar).

*Farmers RECC is an equal opportunity provider and employer.*
